W soils: "WOODRIDGE" LANDSCAPE: large unit on low convex hills and ridges south of the Brisbane River, with narrow alluvial plains; better-watered soils were cleared for pastures; soils are derived from sedimentary rocks of the Tingalpa Formation - clayey sandstones, sandy mudstones, clays, shales and some coarse sandstones; red-yellow soils with thick surface horizons throughout

[From G.G. Beckmann, G.D. Hubble and C.H. Thompson: **The Soil Landscapes of Brisbane and South-eastern Environs** CSIRO, 1987]

Common Name	Botanical Name	Features
<u>Ground Covers and Grasses: 0 - 1 metre and Vines</u>		
blue flax lily	<i>Dianella longifolia</i>	fine lily of open eucalypt forest; blue flowers; bright blue berries; suit rockery or foreground planting
barbed wire grass	<i>Cymbopogon refractus</i>	soft blue-green, tufted perennial aromatic grass with taller arching seed heads, resembling barbed wire
dwarf banksia	<i>Banksia oblongifolia</i>	low-growing banksia for well drained sites; rusty new tips; lemon brushes in winter
forest boronia	<i>Boronia rosmarinifolia</i>	loosely branched shrub for well drained site; showy mauve-pink flowers in spring
gristle fern	<i>Blechnum cartilagineum</i>	upright, hardy fern with a creeping rhizome; pink new growth; moist, open sites
many flowered matrush	<i>Lomandra multiflora</i>	small, grass-like plant for sunny sites; sprays of miniature flowers; evening perfume; draws butterflies
native iris	<i>Patersonia sericea</i>	sparse clump; vibrant purple flowers in spring or after rain; sandy/rockery site; skipper butterflies
rasp fern	<i>Doodia aspera</i>	hardy, spreading, low-growing fern with pink new fronds; tolerates open crowded areas or shade
tape vine	<i>Stephania japonica</i>	climber with glossy dark green heart-shaped leaves; red fleshy fruit on female plant; attracts wildlife
trigger plant	<i>Stylidium graminifolium</i>	grass-like tuft; spikes of pink flowers in summer; unusual pollinating device; suit tub culture
yellow buttons	<i>Chrysocephalum apiculatum</i>	delicate little ground cover for dry sunny site; gold coloured pom-poms; grey-green foliage
<u>Low Shrubs: 1 - 2 metres</u>		
blue tongue	<i>Melastoma affine</i>	excellent understorey plant with large mauve flowers; best in moist site; edible fruit attract some birds
crinkle bush	<i>Lomatia silaifolia</i>	decorative open shrub; intricate foliage; white, grevillea-like flowers; moist, well-drained soil
forest grass tree	<i>Xanthorrhoea johnsonii</i>	slow growing 1.5 m. grass tree for sunny site; well-drained soils; flower spike attracts wildlife
orange pultenaea	<i>Pultenaea euchila</i>	open shrub with bright yellow pea flowers; sunny sites
pointed leaf hovea	<i>Hovea acutifolia</i>	fine open shrub; purple pea flowers in late winter; prefers filtered light, deeper soils
sago flower	<i>Ozothamnus diosmifolius</i>	fine shrub with dense heads of cream flowers; good cut flower; filtered light; painted lady butterfly
small leaved geebung	<i>Persoonia virgata</i>	well branched shrub with fine apple-green foliage; deep yellow flowers; sunny sandy sites

Medium Shrubs: 2 - 5 metres

	<i>Leptospermum whitei</i>	beautiful, branched shrub from wetland heath communities; rough bark in strips; white Spring flowers
blue berry ash	<i>Elaeocarpus reticulatus</i>	feature shrub; sprays of delicate "petticoat" flowers in November, followed by small blue fruits
carol, grey myrtle	<i>Backhousia myrtifolia</i>	small spreading understorey tree with small fragrant leaves & beautiful Summer flower clusters
golden candlesticks	<i>Banksia spinulosa</i>	shrub with stunning golden brushes; sunny, well-drained site; attracts honey-eating birds, possums
quinine berry	<i>Petalostigma pubescens</i>	small tree with dense canopy; small shiny leaves; bitter orange berries; sunny, well drained position
tree heath	<i>Trochocarpa laurina</i>	tall, open shrub with deep green, shiny leaves; terminal sprays of small white flowers
twiggy heath myrtle	<i>Baeckea virgata</i>	graceful, fine-leaved spreading shrub; prolific tiny white flowers in summer; constant moisture
white bolly gum	<i>Neolitsea dealbata</i>	understorey shrub; slender trunk with arching branches; silver-pink new growth; blue triangle butterfly
<u>Small Trees: 5 - 10 metres</u>		
hard quandong	<i>Elaeocarpus obovatus</i>	tree of creeksides; dense, mid-green foliage; clean grey trunk; small white flowers; small blue fruits
murrogun	<i>Cryptocarya microneura</i>	a tree in the natural creek-side community; dense, shiny-leaved form suits hedge; can be pruned
native bleeding heart	<i>Omalthus populifolius</i>	bushy rounded tree for moist, protected, mulched areas; heart-shaped leaves turn red as they age
native ebony	<i>Diospyros germinata</i>	shrub to small tree from coastal vine forests; small flowers in summer; succulent, edible berries
red kamala	<i>Mallotus philippensis</i>	nicely shaped tree if grown in sun; can be pruned to give new reddish growth; velvety red fruit
silver sycamore	<i>Cryptocarya glaucescens</i>	medium shade tree; dense dark crown with silver undersides; hardy but needs moisture; black fruits
small-leaved paper bark	<i>Melaleuca sieberi</i>	tall fine-leaved shrub for a moist, but well drained area; perfumed cream brushes; red new growth
snow in summer	<i>Melaleuca linariifolia</i>	dense, fine-leaved tree; paper bark; hardy, but prefers moist deep soils; white summer flowers
three veined laurel	<i>Cryptocarya triplinervis</i>	easily grown, rounded shade tree for moist, deep soils; heavy seasonal fruiting attracts some birds
<u>Tall Trees: over 10 metres</u>		
forest red gum	<i>Eucalyptus tereticornis</i>	trees for acreage or steep sites; comprised original canopy of the area; trunks a feature; provide food, nest and perch sites for numerous and varied native wildlife
white mahogany	<i>Eucalyptus umbra</i>	
red stringybark	<i>Eucalyptus resinifera</i>	
small fruited grey gum	<i>Eucalyptus propinqua</i>	
scribbly gum	<i>Eucalyptus signata</i>	
yellow stringybark	<i>Eucalyptus acmenoides</i>	
tallowwood	<i>Eucalyptus microcorys</i>	
narrow-leaved red gum	<i>Eucalyptus seeana</i>	
brown beech	<i>Pennantia cunninghamii</i>	large shady highland rainforest tree with glossy green leaves and fluted trunk
celery wood	<i>Polyscias elegans</i>	handsome shade tree; long pinnate leaves; fast growing pioneer in rich, moist soils; draws wildlife
churnwood	<i>Citronella moorei</i>	large shady rainforest timber tree; attractive glossy leaves on zig-zag branchlets
paper barked tea tree	<i>Melaleuca quinquenervia</i>	hardy tree for damp sites; cream paper bark; cream brush flowers attract insects and birds
